# Subject Index

**ACCESS**

Access problems and solutions: Ramifications for dental hygiene research. Nielsen-Thompson N, 34.

Articulation strategies for community college and university based dental hygiene programs. Kee CTL et al., 396.

**CLINICAL PROCEDURES**

The dental hygienist's role in recommending dietary fluoride supplements. Eldredge JB et al., 385.

**Chemotherapeutic agents**

**Antimicrobials**

Subgingival irrigation with Chloramine-T. Herzog A et al., 515.

**Data collection/patient assessment**

Medical history review prior to local anesthesia administration. Maseman DC et al., 131.

Temporomandibular joint dysfunction (TMJ): The role of the dental hygienist. Coakley MC, 521.

**Dental hygiene treatment planning**

Oral hygiene care of osseointegrated dental implants. Muzzin KMB et al., 448.

**Margination (overhang removal)**

Class II amalgam overhangs—prevalence, significance, and removal techniques: A literature review. Biller-Karlsson I et al., 180.

**Pain control**

**Local anesthesia**

Medical history review prior to local anesthesia administration. Maseman DC et al., 131.

**Patient education**

Compliance and dental hygiene self-care. Boyer EM, 30.

Oral hygiene skill evaluation by students using task component analysis. Parker E, 496.

Smoking cessation advice delivered by the dental hygienist: A pilot study. Secker-Walker RH et al., 186.

Temporomandibular joint dysfunction (TMJ): The role of the dental hygienist. Coakley MC, 521.

**Prevention of disease transmission**

Hepatitis B patient treatment in dental hygiene education programs: Clinical protocols. Longenecker SA et al., 250.

Hepatitis B vaccine: Use in dental hygiene programs. Hoffman LA, 274.

Patient perceptions of protective gloves: A disease transmission barrier technique. Uldricks JM et al., 278.

**Preventive agents**

**Fluoride**

Dental fluorosis in children in the 1980s: A review of the literature. Tobin EA, 380.

The dental hygienist's role in recommending dietary fluoride supplements. Eldredge JB et al., 385.

**Oral irrigation**

Subgingival irrigation with Chloramine-T. Herzog A et al., 515.

**Sealants**

Retention of dental sealants following the use of air polishing and traditional cleaning. Scott L et al., 402.

**Radiology**

Dental radiography: A review for dental hygiene practitioners. Herzog A, 240.

**Root planing**

**Hand instruments**

Strategies to improve instrument sharpening. Marquam BJ, 334.

**Ultrasonics**

In vitro evaluation of air-powder polishing as an adjunct to ultrasonic scaling on periodontally involved root surfaces. Lavigne CK et al., 504.

**Scaling**

**Hand instruments**

Strategies to improve instrument sharpening. Marquam BJ, 334.

**Ultrasonics**

In vitro evaluation of air-powder polishing as an adjunct to ultrasonic scaling on periodontally involved root surfaces. Lavigne CK et al., 504.

**Tooth**

**Polishing and cleansing**

Plaque reaccumulation following engine polishing or toothbrushing: A 90-day clinical trial. Waring MB et al., 282.

**Devices**

In vitro evaluation of air-powder polishing as an adjunct to ultrasonic scaling on periodontally involved root surfaces. Lavigne CK et al., 504.

Retention of dental sealants following the use of air polishing and traditional cleaning. Scott L et al., 402.

**COMPETENCE/QUALITY ASSURANCE**

**Evaluation system**

Dimensions of dental hygiene clinical instruction.

Romberg E et al., 76.
Teacher practices and student satisfaction in dental hygiene programs. Amos LW et al., 290.

**DELIVERY**
The dental hygienist's role in recommending dietary fluoride supplements. Eldredge JB et al., 385.
**General population**
**Children**
The dental hygienist's role in recommending dietary fluoride supplements. Eldredge JB et al., 385.
Retention of dental sealants following the use of air polishing and traditional cleaning. Scott L et al., 402.
**Special population groups**
Access problems and solutions: Ramifications for dental hygiene research. Nielsen-Thompson N, 34.
**System**
Access problems and solutions: Ramifications for dental hygiene research. Nielsen-Thompson N, 34.

Dental hygiene: A developing discipline? Bowen DM, 23.
Dental hygiene: A field of study. Biller-Karlsson I, 20.
Highly technical but yet not impure: Varieties of basic knowledge. Dickoff JP et al., 41.
Measuring professional growth: Analysis of *Dental Hygiene* manuscripts, 1927–1950. Nielsen-Thompson N et al., 118.
New calls for knowledge development in the practice discipline of dental hygiene. Dickoff JP et al., 25.
Organization and expansion of knowledge: Toward a constructive assault on the imperious distinction of pure from applied knowledge, of knowledge from technique. Dickoff JP et al., 15.
Taking concepts as guides to action: Exploring kinds of know-how. Dickoff JP et al., 38.
Measuring professional growth: Analysis of *Dental Hygiene* manuscripts, 1927–1950. Nielsen-Thompson N et al., 118.
**Future**
Today's dentistry: Based on prevention, driven by research. Löe H, 495.
**History**
Measuring professional growth: Analysis of *Dental Hygiene* manuscripts, 1927–1950. Nielsen-Thompson N et al., 118.
Today's dentistry: Based on prevention, driven by research. Löe H, 495.

**PUBLIC SERVICE**
**Screening**
**Oral disease**
A smoking cessation program for the oral health care practice. Borden PS et al., 339.

**RESEARCH**
**Design and methodology**
Principles of research design. Kohout F, 38.
Funding for research in dental hygiene. Squier C et al., 43.
**Theory development**
